

State Normal Hall
Trenton N. J.

Dec 11 '93

Sir

Will you kindly
inform me of the
management at the
U. S. Mint?

I attend school here
at the Normal, and
my teacher in History
has given each pupil
in my class a subject
to study, and write a
composition on.

My subject is the
U. S. Mint.

I would like to know
the whole history of the
Mint from the beginning

How it was built,
where they get all
the gold and silver
from,

how the money
is stamped.

how the men
and women get their
positions.

how all the
work is done, how
the metal is refined
(all the processes)

Perhaps they have
many different kinds
of machines there
to stamp the different
coins with. if there
is a machine for every
coin please tell me so.

I have visited
the Mint, but I have
an indefinite idea
of all I saw or heard.

If you will kindly
send me a report,
answering my questions
and many more beside
that will describe the
work done at the Mint.

you will have my
sincere thanks for
the same.

Hoping to hear
from you soon,
please address

Miss Anna Hartner
State Normal Hall,
Trenton,
New Jersey.

U. S. Treasury Department.

I would refer him to
Scott Stamp & Coin Co.
15 East 23^d St.
New York.
